

Frustrated Freight

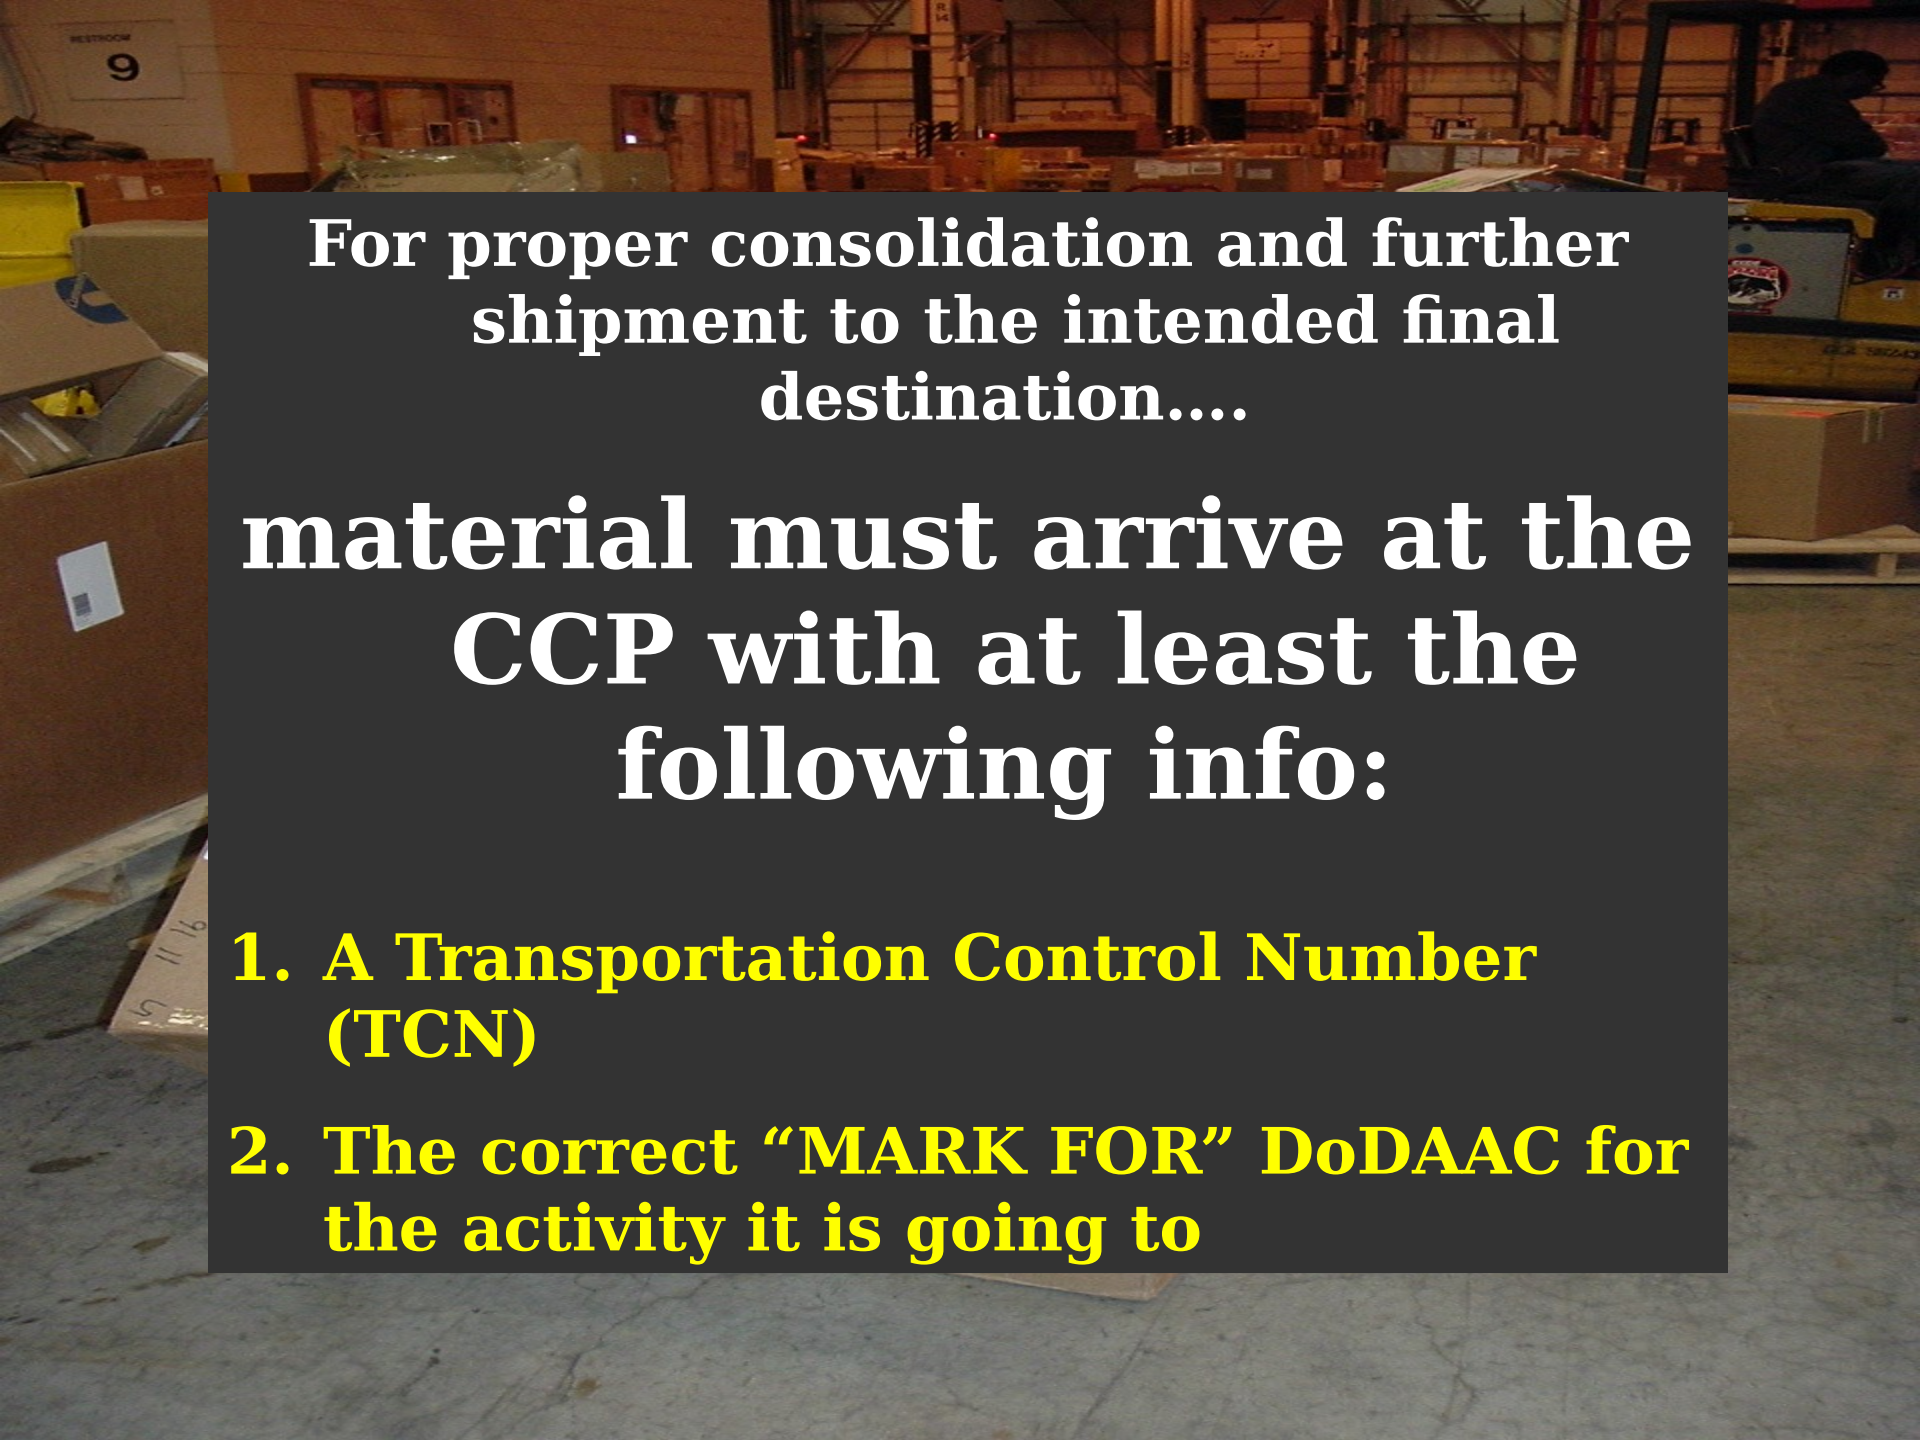

Material arriving with incorrect or missing forwarding information, is the leading cause of frustrated material at DDSP

Activities sending material to the CCP at DDSP for consolidation and further shipment, need to ensure all required information needed to send the material on to its final destination is correctly on the shipping label BEFORE they send it to the CCP.

A background image of a warehouse. In the upper right, a person is operating a yellow forklift. The floor is concrete, and there are various cardboard boxes and pallets scattered throughout the scene. A sign with the number '9' is visible on the left wall.

**For proper consolidation and further
shipment to the intended final
destination....**

**material must arrive at the
CCP with at least the
following info:**

- 1. A Transportation Control Number (TCN)**
- 2. The correct “MARK FOR” DoDAAC for the activity it is going to**
